

BENGAL ENERGY

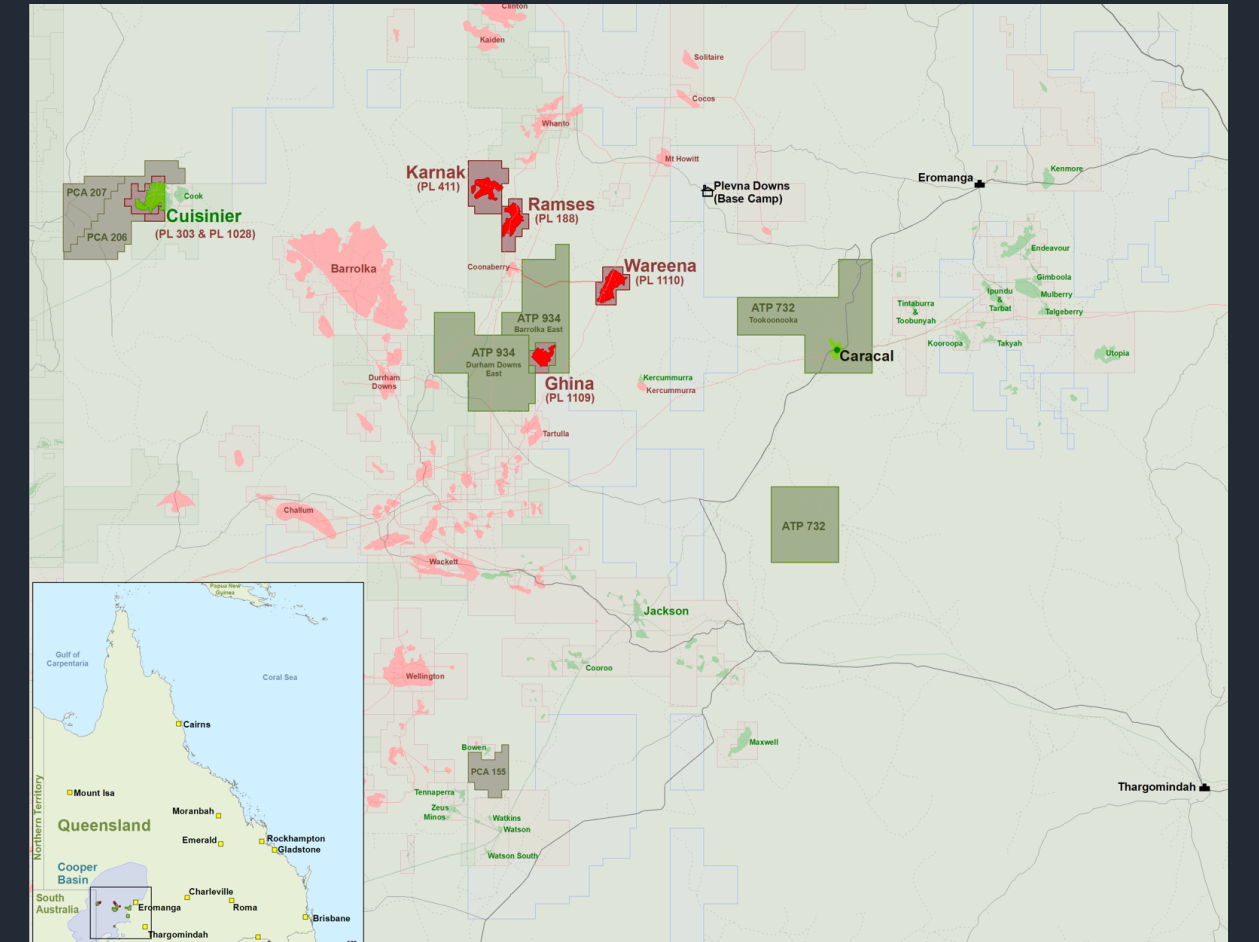

HIGH POTENTIAL IMPACT OIL AND GAS PROJECTS IN AUSTRALIA'S COOPER BASIN

WHO WE ARE

Bengal Energy is a rapidly evolving oil and gas exploration company with a portfolio of high potential impact projects in Australia's Cooper Basin. It is listed on the TSX (BEN) and is headquartered in Toronto, CAN with an additional office in Brisbane, AUS.

ACERAGE POSTION

Cuisinier – 30%
Windorah Trough Fields – 100%
ATP 934 – 40 – 100%
ATP 732 – 100%

EARLY TERM INITIATIVES

BEA TECHNOLOGIES

- Partnership with Ago Vires
- Develop technology-led solutions in green hydrogen
- Add value to remote operations JMS and Canaria
- Safe, efficient and sustainable production delivery

EARLY GAS PRODUCTION SYSTEM

- Unlock stranded gas
- Gas awaiting infrastructure connection
- Gas that would otherwise be vented or flared
- Gas considered uneconomic due to its pool size

EARLY OIL PRODUCTION SYSTEM

- Roadrunner mobile pumpjack
- Captures oil quickly
- Deployed easily to fields otherwise considered unviable
- Production transported to refinery by truck

DIGITAL MINING DONGAS

- Powering crypto-currency mining
- Network connection via satellite
- Reliable electricity source
- Cheaper alternative with lower-carbon emissions
- Monetising assets otherwise considered unviable

SUSTAINABLE COMMUNITY DEVELOPMENT

Moving Australia toward a low carbon economy

- Green hydrogen from produced water
- Carbon farming

Supporting communities in which we operate

- Native Title land holders
- Local suppliers and contractors

EROMANGA NATURAL HISTORY MUSEUM

- Boosting tourism and business growth supporting grant applications
- Direct funding of infrastructure of Bengal and its contractors to build playground
- Community partnerships
- Raising profile of the Foundation through presentations to new audiences
